GAME BOY® ADVANCE

BIONICLE™: Matoran Adventures

Product Description

From the most successful toy-range in LEGO history comes an all-new BIONICLE™ adventure only on GameBoy Advance.

Set around the elementally themed regions of the island of Mata Nui - a tropical paradise, with high mountains, great lakes and mighty volcanoes – players of this fast-paced fun handheld platform game, will guide Matoran and Turaga characters (the brave villagers & elders of Mata Nui) on an incredible adventure. Face many obstacles & enemies and finally defeat the Bahrag – the great enemy of Mata Nui & its inhabitants.

Players must avoid and overcome the mighty beasts Rahi and the ravenous bug-like Bohrok, ~~enemies (describe enemies)~~ as they solve puzzles, avoid traps, open doors and activate switches to reveal hidden chambers in each of the environments. As players dodge in and out of the various regions in the game, they must avoid dangerous falling rocks and icicles while they steer clear of lava pools.

BIONICLE™: Matoran Adventures offers a fun unique character-switching feature to help players advance through each of the ~~number six~~ levels found in the game. Players start as a Matoran and unlock more Matoran characters as they progress. Turaga, with their unique powers, can be “picked up” throughout the game to help the player through an elemental hazard like a lava pool or to activate a switch to a secret door. Once found, that “picked-up” Turaga follows you onwards in your adventure. Explain how the character-switching feature works.
