Eating at the Pizzeria.

Character	Conversation
Shugu	One margarita but without tomato or cheese on it. But that's just a base. And perfectly suitable for my ascetic values. Okay, Papa one pizza base with no toppings at all.
Belinda Blink	Mmm, so much choice. Uh just a farm fresh vegetable festival please. And lots of napkins, or a bib. I just know I'm going to drop a slice. Certainly my dear.
The Director	Give us the biggest pizza you have, the one with the most toppings and the greatest taste explosion outside of a spice market. Would the super duper mega meaty chilli surprise times two with anchovy chaser do? Sounds marvellous.
Bony	Uh just the crust of a pizza that someone else has eaten so I can consume the ghost of a pizza. It will be a moment while I check the bins.
Brickster	A hotsy totsy flaming chilli dragon breath. That's twelve ninety five please.

	<p>Can I have it on account?</p> <p>No! No money no pizza.</p> <p>Oh all right then, here you go.</p>
DJ Jackitt	<p>The Brickolini's Pizzeria, fantastic pizza's at low, low, prices, including my favourite the Hawaiian.</p> <p>Are we still on air?</p> <p>No, I always talk like that.</p>
Dr. Clickitt	<p>There you are doctor, a nice low fat high fibre spinach and ricotta cheese pizza.</p> <p>Just what the doctor ordered. Ha, ha.</p>
Ed Mail	<p>I'm so hungry, I've been on my feet a whole four hours! A huge pepperoni and spicy beef pizza please.</p> <p>Certainly Ed, sit down, put your feet up for an hour and enjoy a delicious pizza.</p>
Footballers	<p>Three Neapolitan pizzas please.</p> <p>I thought that was an ice cream.</p> <p>It's a pizza as well.</p> <p>Neapolitan ice cream pizza sounds lovely.</p> <p>Trust me pizza then ice cream is nicer then ice cream pizza.</p>
Infomaniac	<p>Hello Mama, I think I've had all the standard pizzas so surprise me with a taste sensation.</p> <p>Of course Infomaniac I know something you'll love.</p>
